

Readme

Source type: DubboEwaste repository document

Repository path: README.md

Source commit: c2103b6090c8

Pack generated: 6 October 2026

DubboEwaste

Research, operating design and software for a reuse-first e-waste / IT asset disposition pilot in Dubbo, NSW.

Reuse first. Recycle second.

Start here

If you are new to the repository, open START-HERE.md (START-HERE.md).

The three current authority documents are:

1. Current state (docs/CURRENT-STATE.md) — what is verified, designed, blocked or still unknown.
2. Phase 0 launch gates (docs/PHASE-0-LAUNCH-GATES.md) — what must be closed before broader intake.
3. Research index (docs/RESEARCH-INDEX.md) — where detailed evidence and historical research lives.

For the complete documentation map, use docs/README.md (docs/README.md).

Device-recovery research

- National ITAD comparison (docs/NATIONAL-ITAD-OPERATORS-DUBBO-COVERAGE.md) — Greenbox, EraseIT, SLS and Renew IT: size, retired-device routes and advertised Dubbo coverage.
- Dubbo independent operators (docs/DUBBO-INDEPENDENT-DEVICE-RECOVERY-OPERATORS.md) — publicly named businesses, recycling/refurbishment offers and unresolved backyard identities, with a lead tracker (docs/dubbo-independent-device-recovery-leads.csv).
- Dubbo disposal prospects (docs/DUBBO-DEVICE-DISPOSAL-PROSPECTS.md) — retired-device arrangements and open questions for 14 local prospects.

Software

Production operations app

EwasteApp/ (EwasteApp/) is the current private AssetFlow application.

- Next.js
- Supabase Auth + PostgreSQL
- Row Level Security
- customers, jobs, lots and assets
- intake and model lookup
- evidence, testing, grading and sanitisation
- repairs, resale and recycling workflows

- certificates and reporting
- admin CRUD, roles and per-user permissions

Production: <https://dubbo-ewaste-app.vercel.app/>

GitHub Pages

The published gh-pages branch contains the public gateway and GitHub Pages admin console.

The main/DubboEwasteApp/ directory is an older static prototype source and should not be confused with the production Next.js application or the newer generated Pages admin console. See DubboEwasteApp/README.md (DubboEwasteApp/README.md).

Repository map

Path | Purpose

START-HERE.md (START-HERE.md) | Human-friendly front door

docs/ (docs/) | Research, policy, operational guidance and evidence

EwasteApp/ (EwasteApp/) | Production private operations application

OpenSourceSoftware/ (OpenSourceSoftware/) | AssetFlow product specification, workflow reconstruction and backlog

templates/ (templates/) | Operational forms and evidence templates

data/ (data/) | Structured research/pilot datasets

scripts/ (scripts/) | Validators, analysis and safety/link checks

examples/ (examples/) | Synthetic examples safe for testing

agyDOCS/ (agyDOCS/) | Historical agent research retained for provenance

claudeDOCS/ (claudeDOCS/) | Historical agent research retained for provenance

DubboEwasteApp/ (DubboEwasteApp/) | Older static prototype source; not the production app

GAPS.md (GAPS.md) | Historical detailed gap register

codexToDo.md (codexToDo.md) | Current external/pilot closure backlog

chatgptToDo.md (chatgptToDo.md) | Completed ChatGPT execution log; historical

README.md (README.md) | This summary

docs/MASTER-FINDINGS-ALL-CHATS.md (docs/MASTER-FINDINGS-ALL-CHATS.md) | Master synthesis from all project chats: top 10 takeaways, Officeworks clarification, planning/legal, downstream, reuse/ITAD, Device Bank/Dubbo links, corrections and the five biggest unanswered questions

docs/PODCASTS-CANONICAL.md (docs/PODCASTS-CANONICAL.md) | Canonical deduplicated podcast list: Australia/NSW first, then ITAD, repair economics and downstream circular-economy listening

docs/SPOTIFY-PODCASTS.md (docs/SPOTIFY-PODCASTS.md) | Curated Spotify listening list: 20 episodes/shows covering ITAD, data sanitisation, reuse/refurbishment, repair economics, Good360/digital inclusion, circular jobs and downstream e-waste processing

docs/PODCASTS-CONSOLIDATED.md (docs/PODCASTS-CONSOLIDATED.md) | Canonical navigation and listening order for the overlapping podcast research files

docs/EXISTING-AUSTRALIAN-EWASTE-ORGS-DUBBO-EXPANSION.md (docs/EXISTING-AUSTRALIAN-EWASTE-ORGS-DUBBO-EXPANSION.md) | Australian organisations that could expand into Dubbo: WorkVentures, Ecoactiv, Ecycle, TechCollect, PonyUp, Renew IT, FlipTech, Device Bank, MobileMuster, SK Tes and Sircel, with realistic partnership models

docs/DOWNSTREAM-PROVIDER-DUBBO-COST-COMPARISON.md (docs/DOWNSTREAM-PROVIDER-DUBBO-COST-COMPARISON.md) | Current provider comparison: Dubbo coverage, published fees, quote-only routes, social-reuse costs and the first-call sequence

docs/NSW-EDUCATION-EWASTE-DUBBO-LAPTOPS.md (docs/NSW-EDUCATION-EWASTE-DUBBO-LAPTOPS.md) | NSW public-school laptop deep dive: EDConnect/eWaste PowerApp, vendor sanitisation, Settlement Reports, C9826 suppliers, Device Bank comparison and the missing Dubbo downstream chain

GAPS.md (GAPS.md) | Full list of what is known, found, and still unknown

codexToDo.md (codexToDo.md) | Executable closure plan: repository work, external gates, pilot work and stop rules

DubboEwasteApp/ (DubboEwasteApp/) | Interactive MVP: staff login boundary, triage, model lookup, inventory, economics and listing drafts

docs/CURRENT-STATE.md (docs/CURRENT-STATE.md) | Canonical current-state register: verified, designed, externally blocked and pilot-only claims

docs/PHASE-0-LAUNCH-GATES.md (docs/PHASE-0-LAUNCH-GATES.md) | Canonical launch sequence: what blocks intake, resale, the pilot, and later scale-up

docs/RESEARCH-INDEX.md (docs/RESEARCH-INDEX.md) | Canonical research index: where each topic lives and which files are historical or superseded

docs/agyGAPS.md (docs/agyGAPS.md) | Original broad gap list covering triage, learning, competitors and sales

docs/claudeGAPS.md (docs/claudeGAPS.md) | Detailed gap register and research opportunities

docs/claudegaps-research/00-INDEX.md (docs/claudegaps-research/00-INDEX.md) | Claude research index, evidence labels and remaining call/try/learn work

docs/codexGAPS.md (docs/codexGAPS.md) | Codex gap audit: research opportunities, unanswered questions and prioritised closure backlog

docs/RESEARCH-01-FRONT-DOOR-TRIAGE.md (docs/RESEARCH-01-FRONT-DOOR-TRIAGE.md) through docs/RESEARCH-16-CLOSURE-EVIDENCE-REGISTER.md (docs/RESEARCH-16-CLOSURE-EVIDENCE-REGISTER.md) | Systematic Codex research series: triage, skills, competitor mechanics, resale, privacy, safety, repair, categories, inventory, partners, downstream, premises, finance, community, trust, pilot closure and evidence maturity

docs/PROJECT-HISTORY-ALL-CHATS.md (docs/PROJECT-HISTORY-ALL-CHATS.md) | Cross-chat project history: Bendigo 2025 origin, 10 donated laptops, DadLAN reuse experience, Dubbo pivot, Joe/Elise lessons, decisions, corrections and unresolved real-world questions

docs/SPOTIFY-PODCAST-LIST.md (docs/SPOTIFY-PODCAST-LIST.md) | Curated Spotify listening guide: ITAD, e-waste, repair, data sanitisation, social reuse, resale economics and Kristy creative-business podcasts

docs/SPOTIFY-AUSTRALIA-NSW-EWASTE.md (docs/SPOTIFY-AUSTRALIA-NSW-EWASTE.md) | Preferred local Spotify list: Australia/NSW e-waste, Renew IT/UNSW, refurbishment, reuse, right-to-repair and Australian reselling

docs/PODCASTS-AUSTRALIAN-ITAD-COMPANIES.md (docs/PODCASTS-AUSTRALIAN-ITAD-COMPANIES.md) | Company/founder podcast appearances: FlipTech, Renew IT, Reconnect, WorkVentures, WV Technologies, Total Green, Close the Loop and Sims Lifecycle

docs/ALL-CHAT-RESEARCH-SYNTHESIS.md (docs/ALL-CHAT-RESEARCH-SYNTHESIS.md) | Extended cross-chat strategic synthesis covering Council/AMR, Officeworks, regional routes, Sircel, TechCollect, Good360/Device Banks, Education, Phase 0, legal and pilot strategy

docs/BACKLOG-01-16-INDEX.md (docs/BACKLOG-01-16-INDEX.md) | Research handoff for backlog items 1–16, with status and remaining confirmations

docs/BACKLOG-01-05-PLANNING-LEGAL.md (docs/BACKLOG-01-05-PLANNING-LEGAL.md) | Property planning, NSW waste law, second-hand dealer and scrap-metal research

docs/BACKLOG-06-12-DOWNSTREAM-STEWARDSHIP.md (docs/BACKLOG-06-12-DOWNSTREAM-STEWARDSHIP.md) | AMR/Council downstream, NTCRS, MobileMuster and B-cycle research

docs/BACKLOG-13-16-REGIONAL-SUPPLY.md (docs/BACKLOG-13-16-REGIONAL-SUPPLY.md) | Surrounding councils, NetWaste/Sircel, volumes and supply-source research

docs/BACKLOG-17-32-INDEX.md (docs/BACKLOG-17-32-INDEX.md) | Research handoff for backlog items 17–32: market, costs, tax, compliance, devices, data, safety, Bendigo/Kristy, grants, templates and pilot metrics

docs/BACKLOG-17-20-MARKET-COST-TAX.md (docs/BACKLOG-17-20-MARKET-COST-TAX.md) | Dubbo competitor map, resale channels, corrected costs and tax/accounting

docs/BACKLOG-21-25-COMPLIANCE-DATA-SAFETY.md (docs/BACKLOG-21-25-COMPLIANCE-DATA-SAFETY.md) | ACL/product safety, Windows/device viability, NIST/ASD sanitisation, WHS/lithium and postage

docs/BACKLOG-26-29-BENDIGO-KRISTY-GRANTS.md (docs/BACKLOG-26-29-BENDIGO-KRISTY-GRANTS.md) | Joe/Elise early history, Kristy creative pathway and current grant landscape

docs/BACKLOG-30-32-OPERATIONS-CORRECTIONS.md (docs/BACKLOG-30-32-OPERATIONS-CORRECTIONS.md) | Operating paperwork, expanded pilot metrics and explicit correction register

docs/PHASE-0-OPERATING-BLUEPRINT.md (docs/PHASE-0-OPERATING-BLUEPRINT.md) | Detailed cheapest-start blueprint: Tue/Sat intake, acceptance gates, storage, wiping, resale, safety and downstream

docs/LEGAL-LICENSING.md (docs/LEGAL-LICENSING.md) | Second-hand dealer licence, council/planning, EPA, in detail

docs/COSTS.md (docs/COSTS.md) | Start-up and running cost picture

docs/INTAKE-POLICY.md (docs/INTAKE-POLICY.md) | What to accept/refuse, wipe standard, safety rules

docs/CALL-SCRIPTS.md (docs/CALL-SCRIPTS.md) | Who to ring, in order, with exact questions

docs/EMAIL-DRAFTS.md (docs/EMAIL-DRAFTS.md) | Ready-to-send emails for Fair Trading, Council, EPA, Joe, Australian Metal Recycling and Avance

docs/SOURCES.md (docs/SOURCES.md) | Sources and confidence levels

docs/bendigo-early-days-deep-dive.md (docs/bendigo-early-days-deep-dive.md) | Deep source-led reconstruction of Joe Parker / Bendigo E-Waste's startup path

docs/KRISTY-CREATIVE-MICROBUSINESS.md (docs/KRISTY-CREATIVE-MICROBUSINESS.md) | Research-backed hobby → microbusiness path for Kristy's creative/art work, modelled on The Painted Brush & Co

templates/ownership-and-wipe-certificate.md (templates/ownership-and-wipe-certificate.md) | Client transfer-of-ownership and data-wipe certificate template

templates/asset-transfer-and-chain-of-custody.md (templates/asset-transfer-and-chain-of-custody.md) | Detailed asset authority, transfer basis and custody-state record

templates/partner-validation-record.md (templates/partner-validation-record.md) | Public-safe record for validating receivers, buyers, courses and social-reuse partners

templates/data-sanitisation-certificate.md (templates/data-sanitisation-certificate.md) | Per-media sanitisation method, tool/version, verification and PASS/FAIL/DESTROY record

templates/repair-notice.md (templates/repair-notice.md) | Customer repair/data-loss notice scaffold with ACCC prescribed-wording checkpoint

templates/sale-and-recall-record.md (templates/sale-and-recall-record.md) | Sale condition, serial/buyer link and later recall-contact record

pilot-tracker.csv (pilot-tracker.csv) | Expanded 64-field pilot tracker: provenance, support/locks, grading, sanitisation, labour, economics, returns and downstream outcome

pilot-tracker.csv (pilot-tracker.csv) | Expanded pilot tracker: provenance, triage, data, labour, selling costs, stock days and downstream outcome

docs/triage-matrix.csv (docs/triage-matrix.csv) | Category acceptance, hold/reject and evidence matrix

docs/bench-test-sheet.md (docs/bench-test-sheet.md) | Printable per-asset bench test and sanitisation sheet

docs/TRIAGE-COMPETENCY-CHECKLIST.md (docs/TRIAGE-COMPETENCY-CHECKLIST.md) | Operator skills assessment and reassessment checklist

docs/LISTING-WARRANTY-CHECKLIST.md (docs/LISTING-WARRANTY-CHECKLIST.md) | Listing, warranty, return and recall pre-publication checks

docs/GLOSSARY.md (docs/GLOSSARY.md) | Plain-language ITAD, lock, sanitisation and stewardship terms

docs/AI-AGENT-OPERATING-SYSTEM.md (docs/AI-AGENT-OPERATING-SYSTEM.md) | What an AI agent can automate, what requires human/external evidence, and the safe handoff loop

docs/RESEARCH-AI-WORKFLOW.md (docs/RESEARCH-AI-WORKFLOW.md) | Claim-level research decomposition, source hierarchy and agent review protocol

docs/UNIT-ECONOMICS.md (docs/UNIT-ECONOMICS.md) | Per-asset contribution and labour-hour calculation specification

docs/research.md (docs/research.md) | Earlier feasibility research retained for additional context

docs/launch-checklist.md (docs/launch-checklist.md) | Earlier lean-launch checklist retained for operational planning

docs/MATTHEWS-INFRABUILD-AMR.md (docs/MATTHEWS-INFRABUILD-AMR.md) | Current research on the Dubbo Matthews/InfraBuild/AMR yard and e-waste outlet

docs/REGIONAL-EWASTE-PATHWAYS.md (docs/REGIONAL-EWASTE-PATHWAYS.md) | What surrounding towns do with e-waste, current drop-off pathways, downstream evidence and reuse opportunities

docs/WHAT-HAPPENS-TO-EWASTE.md (docs/WHAT-HAPPENS-TO-EWASTE.md) | Deep downstream trace: AMR, council routes, Parkes/Sircel, historical Sims/St Marys shredding, Coonamble/Matthews, device-to-material flows and NTCRS recovery data

docs/SIRCEL-ITAD-REUSE-MODEL.md (docs/SIRCEL-ITAD-REUSE-MODEL.md) | Core business-model deep dive: Sircel triage, Blancco wiping, hardware testing, buy-back/reuse, FY24 reuse metrics and a small-scale Dubbo adaptation

docs/SIRCEL-REUSE-PARTNERS-WHERE-DOES-IT-GO.md (docs/SIRCEL-REUSE-PARTNERS-WHERE-DOES-IT-GO.md) | After handoff: traces reuse partners into Good360, Compnow, National Device Bank/WorkVentures, charities, schools and end users; separates proven routes from unknown broker paths

docs/GOOD360-COMPNOW-NATIONAL-DEVICE-BANK-DUBBO.md (docs/GOOD360-COMPNOW-NATIONAL-DEVICE-BANK-DUBBO.md) | Dubbo social-reuse ecosystem: Good360, Compnow refurbishment, National/NSW Device Banks, WorkVentures, Good Things and the strongest specific Dubbo partner leads

docs/SPOTIFY-PODCASTS-AU-NSW-EWASTE-REUSE.md (docs/SPOTIFY-PODCASTS-AU-NSW-EWASTE-REUSE.md) | Spotify listening list: Australia/NSW-first episodes on e-waste, ITAD, reuse, refurbishment, resale, charitable redistribution and circular business models

docs/FLIPTech-EQUIVALENTS-DUBBO-BRANCH-FEASIBILITY.md (docs/FLIPTech-EQUIVALENTS-DUBBO-BRANCH-FEASIBILITY.md) | Regional expansion deep dive: Fliptech plus Renew IT, G1, WorkVentures, Compnow/SustainIT, 9R, Reconnect, ITC, LinkBytes and others; tests whether a Dubbo branch/satellite is commercially plausible

docs/AMR-DUBBO-DOWNSTREAM-FORENSIC.md (docs/AMR-DUBBO-DOWNSTREAM-FORENSIC.md) | Forensic trace: attempts to identify the exact company/facility receiving AMR Dubbo e-waste, with candidates and evidence limits

docs/TECHCOLLECT-REUSE-DEEP-DIVE.md (docs/TECHCOLLECT-REUSE-DEEP-DIVE.md) | Reuse deep dive: TechCollect's no-second-hand-reuse policy, ANZRP's separate reuse partnerships, and implications for Dubbo eWaste

docs/REUSE-MODELS-PONYUP-RECONNECT-LAPTOP-INITIATIVE.md (docs/REUSE-MODELS-PONYUP-RECONNECT-LAPTOP-INITIATIVE.md) | Reuse-first benchmark: PonyUp commercial ITAD/resale, Reconnect repair/refurbishment, and The Laptop Initiative direct charity redistribution

docs/NSW-FLIPTech-EQUIVALENTS-DEEP-DIVE.md (docs/NSW-FLIPTech-EQUIVALENTS-DEEP-DIVE.md) | NSW FlipTech equivalents deep dive: FlipTech, Renew IT, ITC Asset Management, Reconnect, WorkVentures and LinkBytes – origins, ITAD/refurb flows, revenue models and what Dubbo can copy

docs/WHY-COUNCIL-ELECTRONICS-REUSE-IS-HARD.md (docs/WHY-COUNCIL-ELECTRONICS-REUSE-IS-HARD.md) | Barrier deep dive: staffing, safety, data, batteries, dumping, retail liability, economics and regional scale

docs/DUBBO-WELLINGTON-NARROMINE-TRANGIE-REUSE-PROGRAMS.md (docs/DUBBO-WELLINGTON-NARROMINE-TRANGIE-REUSE-PROGRAMS.md) | Closest-town official programs: e-waste collection versus actual reuse/resale in Dubbo, Wellington, Narromine and Trangie

docs/PONYUP-SECONDBITE-DUBBO.md (docs/PONYUP-SECONDBITE-DUBBO.md) | Dubbo connection deep dive: PonyUp's profit-to-SecondBite model, Connecting Community Services' real Dubbo link, and what is/not an electronics pathway

docs/SPOTIFY-PODCASTS-EWASTE-REUSE-ITAD.md (docs/SPOTIFY-PODCASTS-EWASTE-REUSE-ITAD.md) | Curated Spotify listening list: ranked episodes on e-waste, reuse, refurbishment, ITAD, data wiping,

right-to-repair, reverse logistics, digital inclusion and Australian circular electronics
docs/FLIPTeCH-DUBBO-BRANCH-FEASIBILITY.md (docs/FLIPTeCH-DUBBO-BRANCH-FEASIBILITY.md) | Fliptech deep dive: corporate ITAD/reuse model, data security, growth signals and feasibility of a Dubbo/Central West regional hub or partner operation
docs/AUSTRALIAN-ITAD-STAFFING-DUBBO-BRANCH-SHORTLIST.md (docs/AUSTRALIAN-ITAD-STAFFING-DUBBO-BRANCH-SHORTLIST.md) | Filtered branch shortlist: Australian Fliptech-style ITAD companies by public staffing signal, physical network and evidence that a Dubbo regional hub/branch is worth pursuing
docs/DUBBO-ITAD-BRANCH-PATHWAYS-COSTS-PROCESS.md (docs/DUBBO-ITAD-BRANCH-PATHWAYS-COSTS-PROCESS.md) | How to actually establish a Dubbo ITAD presence: ranked G1/Greenbox/Fliptech/WV/Renew/Shred-X/Iron Mountain pathways, public onboarding processes, current Dubbo premises costs, staffing floors and 90-day launch plan
docs/DUBBO-ITAD-BRANCH-ENTRY-PLAYBOOK.md (docs/DUBBO-ITAD-BRANCH-ENTRY-PLAYBOOK.md) | Branch/partner playbook: ranks Greenbox, G1, Fliptech, WV, Iron Mountain, Renew IT and Shred-X by ease/cost/payoff, gives public onboarding processes and current Dubbo cost benchmarks

Current project status

The repository supports a research-ready, tightly gated pilot, not unrestricted public intake. Planning, insurance, premises, Fair Trading, safety/data validation and downstream evidence still contain external gates. Read docs/CURRENT-STATE.md (docs/CURRENT-STATE.md) before treating any historical research as current operational authority.

Evidence rule

Historical files are retained deliberately. A detailed or older file is not automatically current. When sources conflict:

1. use docs/CURRENT-STATE.md for current status;
2. use docs/RESEARCH-INDEX.md to find the current topic authority;
3. preserve older material as provenance rather than silently deleting it.

Development checks

The repository has CI for:

- EwasteApp typecheck/build;
- evidence validation;
- pilot tracker validation;
- external link auditing.

See .github/workflows/ (.github/workflows/).

A snapshot of the former long-form root README is preserved at docs/archive/README-SNAPSHOT-2026-10-02.md (docs/archive/README-SNAPSHOT-2026-10-02.md).

ITAD software feature benchmark

25-product benchmark and combined AssetFlow requirements (ITAD-Feature-Benchmark/README.md) — public-source feature profiles, prioritised acceptance criteria, integration boundaries and research gaps. These are product goals, not shipped-feature claims.
