Device-disposal research: sources and limits

Checked 2 October 2026. Companion to the prospect report (DUBBO-DEVICE-DISPOSAL-PROSPECTS.md) and 14-row tracker (dubbo-device-disposal-prospects.csv). Dates below are source dates when established; “undated” is not a claim of recent publication. Live official pages were checked on the research date. No private portal or signed-in account was accessed.

Search scope

Research combined organisation names and domains with terms including old/retired computers, laptop refresh, IT disposal, e-waste, asset recovery, recycling, donation, remarketing, IT supplier, sustainability, annual report, procurement and tender. Follow-up searches traced named suppliers and ownership changes rather than treating general environmental statements as device evidence.

Representative queries included:

- MAAS Group Holdings e-waste IT disposal recycling computers
- Fletcher International Exports IT disposal old computers recycling
- Westhaven Chromebook Unitech old devices disposal
- Earlyrise Baking Company handheld NCS case study
- Dubbo RSL computer disposal annual report
- Inland Petroleum Reliance Technology IT
- Dubbo City Toyota Servco retired computers
- Bidfood Dubbo Midwest Foods IT disposal
- Western NSW LHD e-waste asset disposal supplier

- site:csu.edu.au "Computer Shop" "Industry Trading"
- TAFE NSW Greenbox Dell IT refresh remarketing
- Dubbo Regional Council computer disposal tender
- NSW government surplus laptops Device Bank WorkVentures
- NSW education eWaste vendor EDConnect

This is a public-source investigation, not a complete search of private purchase orders, disposal manifests or every closed tender. "Unknown" means this research did not establish the fact. It does not mean no record or service exists.

Retrieval problems and rejected extrapolations

Item | Result / treatment

Dubbo RSL link presented as 2026-Annual-Report.pdf | Returned 404; not used to support current claims. Report/constitution page did not yield a usable current report.

MAAS FY2026 PDF | Web open failed due size; downloaded successfully and extracted locally. Generic financial asset-disposal entries are not device-disposal records.

TAFE 2024–25 report | Downloaded and searched locally. Training an e-waste business does not make that business TAFE's recovery supplier.

Greenbox case-study links | General site/service text available; no accessible named TAFE case independently corroborated S27.

LinkedIn project | Indexed participant text read; direct 429. Not treated as a current audited contract or as independent confirmation.

TAFE Veolia waste-services notice | Search identified a general waste contract; direct notice access blocked. Not promoted to an IT-disposal finding.

Bidfood environmental-report download | Retrieval failed; no claim based on unseen PDF.

Guide PDF URL later redirected | Earlier retrieved guide text retained as qualified evidence; current file location/applicability needs confirmation.

School policy versus operational guide | Both recorded. The apparent wiping-instruction difference requires Department clarification.

Fletcher environmental certificates | Plant monitoring, not ITAD accreditation or disposal manifests.

Inland web supplier credits | Web authorship does not establish fleet management or device recovery.

Council Laptop to Launch | Training evidence, not Council device donations.

Health examples in other LHDs | State context only; no local quantities or current Western NSW supplier inferred.

Similar names and overseas sources | Excluded Maas Computers Netherlands, City of Charles Sturt SA, US universities abbreviated CSU, unrelated Midwest Foods businesses and non-Australian Bidfood policies.

How to update

Retain this dated snapshot. Add a dated direct-contact or primary-document evidence record when the asset owner confirms an actual arrangement. Update the CSV's status, current provider and last-batch outcome only with that evidence ID. Public contact pages are routing sources, not proof that the person answering can authorise transfer. Keep private client information and non-public agreements out of this public report.
