

Waverley Council Repair Cafe - Computer and Phone Repair Operating Model

Source type: External primary-source research brief

Category: Repair Cafe / practical model

Primary source: https://www.waverley.nsw.gov.au/recreation/events/events/repair_cafe3

Source checked: 6 October 2026

Source summary

Waverley Council's Repair Cafe shows a current NSW council-run model that includes computers, phones and electronics. It sets visitor expectations around backups, passwords/PINs, bringing chargers and upgrade parts, and a roughly 30-minute repair slot; it also offers diagnostics, hardware checks, RAM/SSD installs and tag-and-test services depending on volunteers. This is a useful practical benchmark for a Dubbo computer-focused repair event.

Why this matters for Dubbo eWaste

Provides a real NSW example of scope boundaries, visitor preparation, time-boxing and the mix of technical services volunteers can safely offer.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
