

Open Repair Alliance - Global Repair Dataset

Source type: External primary-source research brief

Category: Repair data / benchmarking

Primary source: <https://openrepair.org/open-data/downloads/>

Source checked: 6 October 2026

Source summary

The Open Repair Alliance publishes an openly licensed aggregate dataset of repair attempts from community repair groups. The page reports more than 305,000 electrical and electronic repair records in the October 2025 release, structured to ORDS v0.3 and licensed CC BY-SA 4.0. This creates a valuable benchmark dataset for analysing common product types, repair outcomes and barriers.

Why this matters for Dubbo eWaste

Could be used later to compare Dubbo repair outcomes with international patterns and to inform which tools, parts and skills are most useful.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
