

DCCEEW - National Television and Computer Recycling Scheme

Source type: External primary-source research brief

Category: Australian e-waste regulation

Primary source: <https://www.dcceew.gov.au/environment/protection/waste/product-stewardship/television-computer-recycling-scheme>

Source checked: 6 October 2026

Source summary

The NTCRS provides households and small businesses with industry-funded access to recycling for televisions, computers, printers, parts and peripherals. It operates under the Recycling and Waste Reduction Act 2020 and associated rules, with co-regulatory arrangements funding and organising collection and recycling.

Why this matters for Dubbo eWaste

Essential for understanding where a reuse-first Dubbo operation fits alongside the regulated national recycling system and why NTCRS material cannot simply be treated as free resale stock.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
