

DCCEEW - NTCRS Roles and Responsibilities

Source type: External primary-source research brief

Category: Australian e-waste regulation

Primary source: <https://www.dcceew.gov.au/environment/protection/waste/product-stewardship/products-schemes/television-on-computer-recycling-scheme>

Source checked: 6 October 2026

Source summary

This DCCEEW guidance maps the roles of local government, households and small businesses, collection services, state regulators, recyclers, co-regulatory arrangements and liable importers/manufacturers. It also sets out the import/manufacture thresholds that trigger liable-party responsibilities.

Why this matters for Dubbo eWaste

Useful for partnership design with council, approved recyclers and scheme participants, and for avoiding confusion about who has authority over different e-waste streams.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
