

NSW EPA - E-waste Guidance

Source type: External primary-source research brief

Category: NSW e-waste / reuse

Primary source: <https://www.epa.nsw.gov.au/Your-environment/Recycling-and-reuse/warr-strategy/product-stewardship-schemes/ewaste>

Source checked: 6 October 2026

Source summary

NSW EPA guidance supports the NTCRS and explicitly suggests reuse pathways for working equipment before recycling, such as second-hand shops, charities, friends or family. It also points councils, social enterprises, e-waste recyclers and collection partners to NSW-specific guidance.

Why this matters for Dubbo eWaste

Strong NSW support for a reuse-before-recycling hierarchy, while reinforcing that recycling pathways still need to be legitimate and documented.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
