

NSW Department of Education - Technology in Schools Procedures

Source type: External primary-source research brief

Category: School device sourcing / disposal

Primary source: <https://education.nsw.gov.au/policy-library/policies/pd-2024-0481-01>

Source checked: 6 October 2026

Source summary

NSW public schools must maintain asset records, decommission unsupported equipment, keep disposal/deactivation records, securely wipe configuration and storage, and use the department's dedicated e-waste process for digital assets. The procedure is a key constraint on any attempt to source public-school devices outside approved channels.

Why this matters for Dubbo eWaste

Clarifies that NSW government-school equipment cannot simply be collected informally; any Dubbo sourcing model must respect departmental asset and disposal controls.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
