

MobileMuster - Reuse and Data Management

Source type: External primary-source research brief

Category: Mobile reuse / recycling

Primary source: <https://www.mobilemuster.com.au/reuse/>

Source checked: 6 October 2026

Source summary

MobileMuster encourages extending phone life through reuse, trade-in and repair when devices remain viable, while directing end-of-life phones to responsible recycling. Its consumer guidance emphasises backing up information, signing out of accounts, factory resetting devices and removing SIM/external storage before transfer.

Why this matters for Dubbo eWaste

Provides an Australian product-stewardship model for separating viable mobile reuse from end-of-life recycling and highlights the importance of account/data release before reuse.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
