

Good360 Australia - Digital Divide and Device Reuse

Source type: External primary-source research brief

Category: Social reuse / digital inclusion

Primary source: <https://good360.org.au/digital-divide/>

Source checked: 6 October 2026

Source summary

Good360's digital inclusion model reclaims used laptops, phones and tablets, has refurbishment partners securely wipe and prepare them, and redistributes devices through charities and schools. The organisation also promotes a National Device Bank model to keep suitable retired devices in Australia for social reuse.

Why this matters for Dubbo eWaste

A strong potential destination/partnership model for devices that are technically viable but better suited to donation than commercial resale.

Source handling note

This PDF is an original research brief prepared for the NotebookLM pack. It summarises the linked source and does not reproduce the source publication in full. Re-check the linked primary source before relying on time-sensitive legal, regulatory, pricing or operational details.
